

I listen to KLOVE almost 24/7, including having my radio on all day at work. It makes an impact both in my life, but in my co-workers'. Without KLOVE our community would not have a contemporary/music only/commercial free Christian radio station. KLOVE is not out to sell anyone anything or force their point of view on anyone, but only wants to make the gospel of Jesus Christ available to everyone through music, free of charge. I have supported K-LOVE monetarily for over 5 years because I believe in their vision and even if taken off the air in my area, will continue to support K-LOVE because I believe in the importance of their ministry.
